

## Hiroshima City

Hiroshima has a population of approximately 1.2 million people and celebrated the 400th anniversary of its founding in 1989. After experiencing total destruction of its urban area by the atomic bombing on August 6, 1945, Hiroshima rose from the ruins to establish itself as an "International City of Peace and Culture." It has continued to evolve as a beautiful metropolis with abundant greenery and rich culture that aims to make significant contributions to peace throughout the world.

Intensive Summer Course 2018

# HIROSHIMA and PEACE

2018  
August  
1-10

## Participation Information

- Tuition**  
11,200 JPY

## Course Description

Hiroshima is not merely a site memorializing its tragic atomic bombing in the last century, but a dynamic city in the new century, where students from diverse backgrounds can come together to study and discuss issues related to world peace. In this summer course, lectures will be given by specialists in peace research with particular reference to 1) cross-cultural perceptions, 2) perspectives on peace and violence, 3) nuclear weapons, 4) Fukushima and nuclear energy, 5) experiences of survivors, 6) international law and 7) environmental issues. In addition to the lectures, the course will feature several special programs, including visits to the Atomic Bomb Dome and Peace Memorial Museum, attendance at the Peace Memorial Ceremony on August 6th, and discussion with atomic bomb survivors. Both undergraduate and graduate students (in a master's or doctoral program) are eligible to earn credit in the course.

## Course Objectives

The aim of this course is to provide students with a general understanding of the nature and attributes of war and peace by illuminating various aspects of wartime experiences, including the atomic bombing of Hiroshima, and at the same time, to explore contemporary issues relating to world peace in a global era. It is designed primarily for students, who seek to gain a deeper knowledge of the importance of peace-making by participating in lectures, discussions, and featured programs. The course will be conducted in English, so the ability to speak and write in English is essential.

## Assessment

Student's grades for the course will be based on the quality of their participation in the classes and activities. The grade will also be based on their participation and performance in a group project task where they will have the opportunity to show the knowledge and perspectives they have gained during the course.

## Schedule

Date	Time	Lecture/Event	Lecturers
